Mirage makes printing and color management simple by giving you all the features, tools and settings you need in one well-arranged layout. Just push the print button and start printing in seconds. All the Mirage Editions come with both the Adobe Creative Suite plug-ins AND the stand-alone application.

▪ Allows printing of PDF, JPEG and TIFF files without the need of any host-application. Simply drag and drop to the Mirage application.
▪ Supports UNLIMITED printers per Edition size. AND, allows you to print to multiple printers at the same time (i.e.: in parallel)!
▪ Comes with robust and automatic nesting functionality in every Edition.
▪ Available for both Mac and Windows
▪ More affordable than ANY other product with comparable features!

▪ Automatic image reflection for gallery wraps

▪ Color accurate soft-proofing with before-and-after slider. So you can quickly see how your image will look on different medias.

OK. So, you're licking your lips now… because it's SO sweet, right!?! Well, the good news is… you don't have to wait another minute to taste Mirage for yourself. Click this link to download a trial version. Head over to our blog and read more about what we think here. Then click this link for more details and to buy it once you're ready for another slice. Bon Appétit!
