EFI and Color Management Group Partner at Graph Expo

EFI™ highlights the Fiery® wide-format portfolio at this year's Graph Expo, October 7-10, McCormick Place, Chicago. See the complete range of production and proofing products, plus.

- A preview of the completely new Fiery XF Version 5 production and proofing edition which features improved spot color handling; intuitive, customizable user interface; the latest Adobe PDF print engine; an all-new profiling tool and much more.

- Softproofing using the unique Caddon Can:View unit.

- Automated and fully integrated cut path generation and customization with the MUST SEE 'EM winner, the Fiery XF Layout Option, powered by ESKO.

- Distributed production printing and proofing using the EFI cloud solution, Fiery Web Control Center.

- Monitoring and tracking of toner and superwide inkjet equipment with the Fiery Dashboard.

Register for a Fiery Version 5 Preview
Register for a Fiery wide format product demo at the EFI booth at Graph Expo (Booth 2000).
