

## **We've assembled an awesome lineup of vendors and products to show you at the CMG booth #3725.**

- We'll have the Roland VersaUV LEC-330 to show off amazing label output and the Epson 900 Series for proofing.
- See controlled lighting products from JUST Normlicht for standardized viewing. We'll also have EIZO monitors and show you color accurate soft-proofing.
- Learn what we consider to be the best process control, MeasureColor, and how it can help you ensure repeatable consistent color.
- Check out the new file delivery, PDF standardizing, soft-proofing and workflow software, Tucanna tFlow, and see how easy it is to automate.
- Meet the experts from the Color Management Group - Get connected with the people who have all the color and workflow answers you seek and can sell you the products you need.
